FOR IMMEDIATE RELEASE
APRIL 4, 2019

Dr. Andrew Morris Wins the 2018 Dr. Lindsay E. Nicolle Award for His Contribution to the *Journal of the Association of Medical Microbiology and Infectious Disease Canada* (JAMMI)

University of Toronto Press, in partnership with the Association of Medical Microbiology and Infectious Disease Canada (AMMI Canada), is pleased to announce that Dr. Andrew Morris has won the 2018 Dr. Lindsay E. Nicolle Award.

Every year, this award is presented to an individual who has made a significant contribution to the study of infectious diseases and medical microbiology as demonstrated by the impact of their original research published in the *Journal of the Association of Medical Microbiology and Infectious Disease Canada* (JAMMI).

The award was presented to Dr. Andrew Morris at AMMI Canada’s annual conference on April 4, 2019, for the publication of “Mandatory infectious diseases consultation leads to improved process measure adherence in the management of Staphylococcus aureus bacteremia: A multicentre, quasi-control study” in JAMMI 3.4.

*JAMMI* is the official publication of the Association of Medical Microbiology and Infectious Disease Canada. The journal serves as a Canadian perspective on medical microbiology and infectious disease, covering the depth and breadth of clinical microbiology and laboratory diagnosis, clinical care and management, epidemiology, and societal issues relating to human infectious diseases.

About University of Toronto Press
Founded in 1901, University of Toronto Press is Canada’s leading scholarly publisher and one of the largest university presses in North America. A leader in its field, the Journals Division publishes a wide selection of scholarly journals and is dedicated to innovation in publishing and ensuring the scholarly journals in its program thrive. The Journals team works hand-in-hand with editors and associations to assist publications in achieving their goals, resulting in major strides forward in such areas as online peer review systems and advance online publishing. www.utpjournals.press

About the Association of Medical Microbiology and Infectious Disease Canada
AMMI Canada is the national specialty association that represents physicians, clinical microbiologists, and researchers specializing in the fields of medical microbiology and infectious diseases. Through promotion of the diagnosis, prevention, and treatment of human infectious diseases and by its involvement in education, research, clinical practice, and advocacy, AMMI Canada aims to serve and educate the public and also to enhance the career opportunities of its members through professional development and advocacy initiatives. www.ammi.ca

The Official Journal of the Association of Medical Microbiology and Infectious Disease Canada (JAMMI), the official publication of AMMI Canada, publishes groundbreaking original papers, controlled clinical trials, review articles, and case reports concerning all aspects of infectious disease. JAMMI serves as a Canadian perspective covering the depth and breadth of clinical microbiology and laboratory diagnosis, clinical care and management, epidemiology and societal issues relating to human infectious diseases by publishing world-class papers to a broad international and multidisciplinary readership of researchers, clinicians, educators, and policy makers with an interest in the field.
